

## PRODUCT DATASHEET

### ProCaP

Professional Pliers

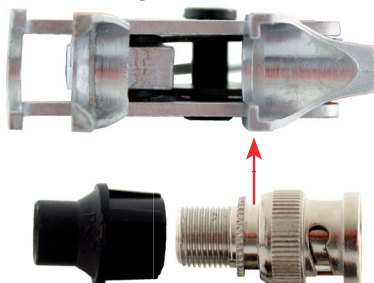

Professional pliers for CaP System. Ultimate tool to get the best connection and disconnection of the CaP with the adapters

#### Insert the CaP

Slip the connector groove in the fingers on the far side. Gently squeeze the pliers to secure the connector. Unlike compression connectors, CaP does not require force.

#### Head Detail from Top

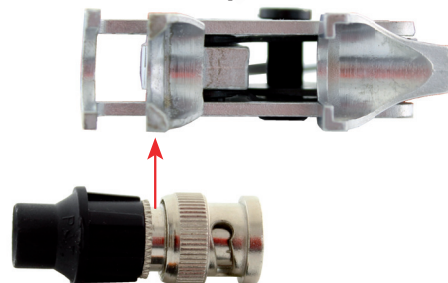

Insert groove here for connection

#### Remove the CaP

Insert the connector groove in the middle fingers and squeeze the handles to open the connection.

#### Head Detail from Top

Insert groove here for disconnection
